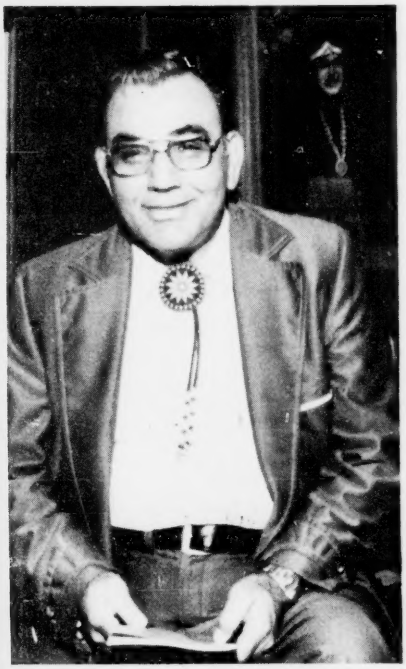
CHARLES HOLLEYMAN RESIGNS AT BACONE

Charles D. Holleyman, president of Bacone College, submitted his resignation to the Bacone Board of Trustees during their March meeting on campus. His resignation will be effective August 31, 1977.

Holleyman took the office of president in March of 1974 and his term as president of the school has been one of outstanding growth and progress for the college. It was with profound regret that the members of the Board of Trustees accepted his resignation.

He gave health as the reason for ending his term. Though he made a remarkable recovery from cerebal hemorrhage he suffured in February, 1976, he feels that his recovery has not been sufficient to continue in his present duties as president of the college.

Loved and admired throughout the country and recognized as one of the outstanding Indian leaders in America, Holleyman has the distinction of being one of the two former students to return to the college as president.



CHARLES D. HOLLEYMAN

Holleyman was named Outstanding Indian of 1974 by the Council of American Indians and is a 1969 recipient of the American Educators Award from the Freedom Foundation, Valley Forge, Pennsylvania. He also received the National Merit Citation from the American Legion.

He is listed in Who's Who in American Education and is a past president of the Oklahoma Education Association and a member of Phi Delta Kappa, education fraternity. He is on the Board of Directors of Murrow Indian Children's Home, the Muskogee Chamber of Commerce, the Boy Scouts of American and the Muskogee Welfare Association. He has been a member of the Lions Club for twenty years and is a 32 degree Mason.

Holleyman, who believes that the American Indian is the "most misunderstood culture in society today," was educated at Chilocco Indian School, near Ponca City, Oklahoma. Following his schooling at Chilocco, he served in the Army during World War II. His tour of duty was in the Pacific Islands and in Japan.

After the service, he entered Bacone College and graduated with an associate arts degree. He reecived a bachelor's degree in education from East Central State College, Ada, and a master's degree from the Universtiy of Oklahoma.

He began his teaching career in 1951 in Velma-Alma school districts of Oklahoma. Later, after serving as a principal in Comanche, Oklahoma, he was appointed superintendent of schools for that area.

Before coming to Bacone, he was superintendent of schools in Mustang, Oklahoma, reported to be one of the five most modern school systems in America. He came to Bacone as vice-president in charge of development and was appointed president of the college in March, 1974.

PRINCIPAL'S COMMENTS

This spring quarter will close June 10, 1977. It is time to reflect and evaluate what you have accomplished this past year. Did you complete any of the goals that you set for yourself? The graduating seniors completed their goals and are to be congratulated. Now they are ready to start learning in the field of practical education. It is in this area that the true value of your formal education is tested. It may be on a summer job, college, or vomay be on a summer job, College, or vocational school that you start to appreciate what Chilocco offered you. Your success or failure is yours because Chilocco can only offer you the opportunity.

Some of the undergraduates will be going home for the summer. We hope they have a fine summer and return for our fall quarter.

We are glad that some of our students plan to remain for the summer quarter. A fine educational program will be offered with educational trips and work programs being planned. Classes will be small allowing more individual help by teachers in the classroom.

Wherever you go or whatever you do we hope you have a good summer and return to Chilocco this fall to continue your school work.

We are looking into the future of our June Graduates. This is the year of 1987, and we would like to look up the graduates to see how they are progressing.

In 1977, there were 14 students that graduated in June and it's going to be rough finding what each of them are doing now but we'll try our best!

The first graduate we found wasn't that hard to find considering that she's right here on campus. Ms. Beard is an English teacher, or as every body remembers her by Johnnie Mae Beard. After Mrs. Hanshew retired at an old age. Johnnie took over her English classes. Well, let's carry on. . . . (strolling along on campus our rereporter bumped into someone) Whoops! Hey, that's Paul Franklin! Everybody remembers Paul don't we? After our reporter just about knocked Paul down we decided to chat with him awhile. We found out he was now the Director of Learning. Poor Mr. Haring had to retire, he finally got to that age of retirement. (He sure didn't want to though.) Paul also informed us that another graduate was also working on campus, Chris Lewis. He's now an instructor of a class that he liked so well which was Body Shop. Yes, Chris Lewis, after all these years decided to come back to ole' Chilocco. So three of our June graduates are still on the Chilocco campus!

The next grad we found was Steve Bear. He's living at Ponca City now, and is doing well too! Steve is a Dentist, he also has his own shop to work at. He sure is making that money, we never thought he would become a dentist.

Jackie Norman and Vernon Lyons, became associates and have their own printing business in Tulsa. They are a very successful pair and have the most popular newspaper in Tulsa, Oklahoma.

We couldn't get in touch with Jack Runnels due to his being in another country. Jack has joined the Marine Corps and we were informed he is a Sergeant now.

We found Jessie Madbull in Oklahoma City. She's an important person there too! She has become a Physical Therapist, and enjoys her work very well.

As we travel to Kansas, we found Kenneth Johnico. He has his own Casseno in Wichita. He's a very popular man, with the ladies also. Maybe because he's a very rich bachelor. Next in Lawrence, Kan. we found Laury Shopteese. She's married and has three sons, she's not working, but her husband is a rich man. So Laury is just a regular housewife.

In Mescalero, New Mexico, we found Gerald Magoosh. He's making his living by priceless paintings. Gerald's married and has two children. So if you happen to be in a museum be sure and look for one of Magoosh's paintings.

The next graduate we found was Anthony Parker. He's living in Utah, and has become one of the state's best lawyers. He was to busy with one of his clients, so we decided not to disturb him.

We've done alot of work so far, but we still haven't found one more of the graduates which is Gorden Coyote. He's living in Somerton, Arizona. He's married to one of our former students Rose Posey or now Rose Coyote. We remember Rose don't we? Gorden liked his Body Shop class so well that he just had to start one of his own, and a very successful one at that.

Traveling back to Oklahoma (all worn out) we started thinking of how well they had progressed. Just think 1977 . . . . 10 years ago . . . it just seems like yesterday! But it was a nice year to graduate.

ON MAY 21, 1977 Chilocco held a Pow-wow in honor of the Princess and Brave. Mr. and Mrs. Leonard Anquoe, sponsors of the Indian Club along with George Calls Him, co-sponsor hosted the event. With the excellent participation of the Chilocco student body and efforts of the Indian Club the Pow-wow was very successful as over 400 people attended. Anna K. Anquoe, 80, a Kiowa from Tulsa was the oldest former student attending school here from 1910 to 1913. Traveling the fartherest distance was Rhonda Ground from the state of New York. The picture above is an example of the participation of the people at the Pow-wow.
